**1. Nice To Know You**

Better than watching Gellar bending silver  
spoons  
Better than witnessing newborn nebulae in  
bloom  
She who sees from up high smiles and surely  
sings  
Perspective pries your once weighty eyes  
And it gives you wings

I haven't felt the way I feel today in so long  
It's hard for me to specify  
I'm beginning to notice  
How much this feels like a waking limb  
Pins and needles, nice to know you

Goodbye, nice to know you

Deeper than the deepest Cousteau would ever  
go  
And higher than the heights of what we often  
think we know  
Blessed she who clearly sees the wood for the  
trees  
To obtain a bird's eye is to turn a blizzard to a  
breeze

I haven't felt the way I feel today in so long  
It's hard for me to specify  
I'm beginning to notice  
How much this feels like a waking limb  
Pins and needles, nice to know you

Goodbye, nice to know you

So could it be that it has been there all along?

**2. Circles**

You saw me lost and treading water  
I looked pathetic

I looked as helpless as a stinger without a bee  
But underneath my presentation, yea  
I knew the walls were coming down  
And the stones that fell were aiming away from  
me

Hey, what would it mean to you?  
To know that it'll come back around again  
Hey, whatever it means to you  
Know that everything moves in circles

I saw you standing in my headlights (blink,  
blink, blink)  
I thought I'd run you down for the weight you  
left on me  
Instead I pushed rewind, reversed and drove  
away  
And seeing you disappear in my rearview  
Brought to me the word reciprocity

Hey, what would it mean to you?  
To know that it'll come back around again  
Hey, whatever it means to you  
Know that everything moves in circles

Round and round we go  
Who would've known it'd end so well  
We fall on and we fall off  
Existential carousel

**3. Wish You Were Here**

I dig my toes into the sand  
The ocean looks like a thousand diamonds  
strewn across a blue blanket  
I lean against the wind  
Pretend that I am weightless  
And in this moment I am happy...happy

I wish you were here

I lay my head on to the sand  
The sky resembles a backlit canopy with holes  
punched in it  
I'm counting UFO's  
I signal them with my lighter  
And in this moment I am happy...happy

I wish you were here

The world's a roller coaster and I am not  
strapped in  
Maybe I should hold with care but my hands are  
busy in the air

**4. Just A Phase**

I am bottled, fizzy water and you are shaking  
me up

You are a fingernail running down the  
chalkboard I thought I left in third grade  
Now my only consolation is that this could not  
last forever  
Even though you're singing and thinking how  
well you've got it made

Who are you? When will you be through?  
Yea it's just a phase...it will be over soon  
Yea it's just a phase

Call it women's intuition  
But I think I'm onto something here  
Temporarityism has been the black plague and  
the Jesus of our age  
I know I must sound opinionated  
Maybe biased and quite possibly jaded  
But sooner than later they'll be throwing  
quarters at you on stage

Who are you? When will you be through?  
Yea it's just a phase...it will be over soon  
Yea it's just a phase  
And I'm waiting for it to be over too

## 5. 11 AM

7 a.m.  
The garbage truck beeps as it backs up  
And I start my day thinking about what I've  
thrown away  
Could I push rewind?  
The credits traverse, signifying the end  
But I missed the best part  
Could we please go back to start?  
Forgive my indecision

Then again, you're always first when no one's  
on your side  
But then again, a day will come when I want off  
that ride

11 a.m.  
By now you would think that I would be up  
But my bedsheets shade the heat of choices I've  
made  
And what did I find?  
I never thought I could want someone so much  
Cause now you're not here and I'm knee deep in  
that old fear  
Forgive my indecision  
I am only a man

Then again, you're always first when no one's  
on your side  
But then again, a day will come when I want off  
that ride

12 p.m. and my dusty telephone rings  
Heavy head up from my pillow, who could it

be?  
I hope it's you

## 6. Blood on the Ground

I don't want to talk to you anymore  
I'm afraid of what I might say  
I bite my tongue everytime you come around  
Cause blood in my mouth beats blood on the  
ground

Hand over my heart I swear I've tried everything  
I could  
Within all my power two weeks and one hour  
I slaved and now I've got nothing to show  
Oh if only you'd grow taller than a brick wall  
From now on I'm gonna start holding my breath  
When you come around and you flex that fake  
grin  
Cause something inside of me has said more  
than twice  
That breathing less air beats breathing you at all

I don't want to talk to you anymore  
I'm afraid of what I might say  
I bite my tongue everytime you come around  
Cause blood in my mouth beats blood on the  
ground

Hand over my mouth I'm earning the right to my  
silence  
In quiet discerning between ego and timing  
Good judgement is once again proving to me  
that it's  
Still worth it's weight in gold  
From now on I'm gonna be so much more wary  
When you start to speak and my warm blood  
starts to boil  
That seeing you is like pulling teeth  
And hearing your voice is like chewing tin foil

I don't want to talk to you anymore  
I'm afraid of what I might say  
I bite my tongue everytime you come around  
Cause blood in my mouth beats blood on the  
ground

High fives to a better judgement  
By saying less today I will gain more  
Low two's to you my fickle friend  
Who brought the art of silent war

## 7. Mexico

You could see me reaching  
So why couldn't you have met me half way?  
You could see me bleeding  
And you would not put pressure on the wound

You only think about yourself  
You better bend before I go  
On the next train to Mexico

You could see my breathing  
But you still kept your hand over my mouth  
You could feel me seething  
But you just turned your nose up in the air

You only think about yourself  
You better bend before I go  
On the next train to Mexico

### **8. Warning**

Bat your eyes girl  
Be otherworldly  
Count your blessings  
Seduce a stranger  
What's so wrong with being happy?  
Kudos to those who see through sickness

When she woke in the morning  
She knew that her life had passed her by  
And she called out a warning  
Don't ever let life pass you by

I suggest we learn to love ourselves  
Before it's made illegal  
When will we learn?  
When will we change?  
Just in time to see it all fall down  
Those left standing will make millions  
Writing books on the way it should have been

When she woke in the morning  
She knew that her life had passed her by  
And she called out a warning  
Don't ever let life pass you by

Floating in this cosmic jacuzzi  
We are like frogs oblivious  
To the water starting to boil  
No one flinches  
We all float face down

When she woke in the morning  
She knew that her life had passed her by  
And she called out a warning  
Don't ever let life pass you by

### **9. Echo**

There's something about the look in your eyes  
Something I noticed when the light was just  
right  
It reminded me twice that I was alive  
And it reminded me that you're so worth the  
fight

My biggest fear will be the rescue of me  
Strange how it turns out that way  
Could you show me dear  
Something I've not seen?  
Something infinitely interesting

There's something about the way you move  
I see your mouth in slow motion when you sing  
More subtle than something someone contrives  
Your movements echo that I have seen the real  
thing

Your biggest fear will be the rescue of you  
Strange how it turns out that way  
Could you show me dear something I've not  
seen?  
Something infinitely interesting

### **10. Have You Ever**

To get up and walk away would be too easy  
So stay and stand your ground  
Just watch your mouth with me  
On the back of every right there's a wrong  
looming  
So here you and I should tread as soft as these  
razor blades for boots will let be

Have you ever tried to step in my shoes?  
Have you ever tried to balance on that beam?  
And if you ever tried to step in my shoes  
They'll never be quite as soft as they seem

(Thought)  
Unabashed honesty would be ideal  
But a prophet did once say that honesty is a  
lonely word  
So where do we go from here, abandon ship  
now?  
My problem is you make me melt and I don't  
want to be frozen anymore

Have you ever tried to step in my shoes?  
Have you ever tried to balance on that beam?  
And if you ever tried to step in my shoes  
They'll never be quite as soft as they seem

Have you ever...have you ever tried to?  
I have never...I have never tried to  
Have you ever tried to step in my shoes?  
Have you ever tried to balance on that beam?  
And if you ever tried to step in my shoes  
They'll never be quite as soft as they seem

### **11. Are You In?**

It's so much better  
When everyone is in are you in  
It's so much better  
When everyone is in are you in

Oooh.....Are you in?  
It's so much better  
When everyone is in are you in  
It's so much easier  
When seafoam green is in fashion  
Oooh.....Are you in?  
Are you...are you.....  
Everybody in.....

Transmissions will be sent when I am through  
Maybe we'll meet again further down the river  
And share what we both discovered...  
Then revel in the view

Further down the river

## 12. Under My Umbrella

When I close my eyes  
I can see for miles  
There's comfort in my dark seat  
And chaos in the aisles

These eyes are not your eyes  
And these eyes are not the color that  
Your arid eyes might be  
No, I was not around  
When those eyes of yours decided so  
I refuse to kneel before the sights you choose to  
see

When I close my eyes  
I remember how to smile  
Under my umbrella  
I'm an accomplished exile

These eyes are not your eyes  
And these eyes are not the color that  
Your arid eyes might be  
No, I was not around  
When those eyes of yours decided so  
I refuse to kneel before the sights you choose to  
see

If this is right, I'd rather be wrong  
If this is sight, I'd  
rather be blind

## 13. Aqueous Transmission

I'm floating down a river  
Oars freed from their holes long ago  
Lying face up on the floor of my vessel  
I marvel at the stars  
And feel my heart overflow

Further down the river

Two weeks without my lover  
I'm in this boat alone  
Floating down a river named emotion  
Will I make it back to shore  
Or drift into the unknown

Further down the river

I'm building an antenna
